

2023 Health & Safety plus League Convenor Report

Health & Safety:

We still had several slips and falls on the Ice again this season. So it is good to see that every year the wearing of helmets is becoming more common. Please remember to replace your grippers a couple of times each season and be sure to wash your new grippers thoroughly with soap and hot water before wearing them on the Ice.

Leagues:

This summer we plan to look at new ways to make our CYO Leagues more attractive to everyone. One idea is to have Recreational Divisions added to our Competitive Divisions.

We will continue to evolve our current Leagues and Schedules to see if we can better utilize the time available.

Our new Doubles Leagues continue to be a success.

If you have any suggestions please email Melanie.
